

2027 Healthier Together Conference Narrative

The American Hospital Association is bringing together leaders from hospitals, health systems, public health and community-based organizations for the 2027 AHA Healthier Together conference, May 4-6 in Anaheim, Calif. This dynamic event will showcase real-world, data-driven strategies and innovative approaches to expand access to care, advance person-centered interventions and strengthen hospital-community partnerships.

Attendees will explore collaborative solutions to address disparities in health outcomes and social drivers of health, as well as reimagine how to build more resilient health ecosystems across the country.

Who should attend the conference?

The Healthier Together Conference is geared for leaders (e.g., managers, directors, vice presidents, senior vice presidents, etc.) who work to improve health outcomes and address health disparities. Proposals should provide tactical solutions and case examples for those who hold positions in the following fields:

- Access and opportunity
- Care delivery redesign/Population health
- Community and patient engagement
- Community health/Community benefit
- Population level data collection and analytics
- Public health
- Social drivers of health

What are the conference's focus areas?

Conference attendees will collaborate to share and discuss promising practices to reduce disparities in health outcomes, while also focusing their efforts on innovative solutions to improve health for all individuals. Specifically, conference sessions fall under five primary content tracks:

- Reducing disparities in health outcomes
- Leveraging data to drive health impact
- Care delivery transformation
- Strengthening cross-sector partnerships
- Centering communities in health solutions

Why should you join us in Anaheim?

The 2027 Healthier Together Conference is the premier gathering for leaders focused on improving health and well-being in communities throughout the country. Attendees will hear from leaders and change-makers who are improving health outcomes throughout the country, and emerge with the latest ideas, resources and success stories fueling the important work taking place in health care.

Join us in Anaheim May 4-6 to reimagine the ways in which you and your organization can co-design solutions, innovate your strategies and amplify the voices across the field to make a true impact on the health care ecosystem.
